

LNCT
Learning Network for
Countries in Transition

Sources of Information on Vaccine Procurement

LNCT Procurement Webinar Series (1 of 3)

May 31st 2018

Tania Cernuschi,, World Health Organization (WHO), HQ, Geneva
Miloud Kaddar, Senior Health Economist, Independent Consultant, LNCT Technical Facilitator
Meghan O'Connell, Senior Program Officer, Results for Development, LNCT Technical Facilitator

Agenda

1. Logistics overview
2. Brief introduction to LNCT
3. Sources of information on vaccine procurement
4. Discussion and questions

Who we are

- The Learning Network for Countries in Transition (LNCT – pronounced “linked”)
- A platform dedicated to supporting countries as they transition away from Gavi support to full domestic financing of their national immunization programs.
- 15 member countries from various regions, in various stages of the Gavi transition process
- Audience is country practitioners and policymakers involved in financing and managing immunization programs in Gavi transitioning countries

ANGOLA

ARMENIA

GEORGIA

GHANA

INDONESIA

LAO PDR

MOLDOVA

NIGERIA

REPUBLIC OF THE CONGO

SÃO TOMÉ E PRÍNCIPE

SRI LANKA

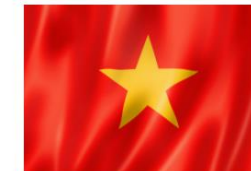

SUDAN

TIMOR-LESTE

UZBEKISTAN

VIETNAM

Supported by a grant from:

Core components

- **Collaborative exchange**

A diverse community of stakeholders from Gavi transitioning countries who exchange their knowledge and experiences managing key immunization functions during transition, and periodically share where they are in the transition process.

- **Knowledge management**

Gathering, managing, and sharing relevant transition information with LNCT members so that they can use it to act effectively and efficiently

- **Learning**

Synthesis and sharing improves the availability and quality of insight on country lessons, good practices, and key management challenges. Better implementation insight supports learning by bridging theory- what you should do- and actual country experiences

- **Catalyzing linkages**

Bridging the gap between theory and practice generates actionable lessons, guidance, or tools that help catalyze new linkages to match supply and demand for support on transition

The new LNCT website is the center of country engagement

Explore at: www.lnct.global

The screenshot shows the LNCT website homepage. At the top right, there is a navigation bar with links for '@Gavi_LNCT', 'Get Involved', 'Select Language', and a 'Member Login' button. Below this is the LNCT logo and the text 'Learning Network for Countries in Transition'. A secondary navigation menu includes 'Who We Are', 'What We Do', 'Directory', 'Resources', 'Discuss', and 'Updates', each with a corresponding icon. A search icon is also present. The main visual is a large image of a health worker in a white coat administering a vaccine to a child. A caption below the image reads: 'A health worker vaccinates a child at Malhangalene Health Center in Maputo, Mozambique. © 2015 Arturo Sanabria, Courtesy of Photoshare'. Below the image is a dark teal banner with the text 'LEARNING NETWORK FOR COUNTRIES IN TRANSITION' and a sub-header: 'LNCT uses collaborative learning to support immunization program practitioners and policymakers in countries transitioning from Gavi support. [More >>](#)'. At the bottom, there are three colored boxes: an orange 'RESOURCES' box with a cloud icon, a pink 'DISCUSS' box with a speech bubble icon, and a blue 'EVENTS' box with a calendar icon. Each box contains a brief description of its content.

LNCT Webinar Series: Full Series on Vaccine Procurement

1. Sources of information on vaccine procurement, May 31st, Renia Coghlan, Vaccine Supply, World Health Organization (WHO), HQ, Geneva
2. Vaccine forecasting and budgeting, week of June 18th
3. Vaccine prices for Gavi transitioning countries, week of July 9th
